ANOTHER DENIAL FROM THE CHAIRMAN.

DEMOCRATS PROSTITUTING THE MAIL SERVICE -MR. CLEVELAND'S BUNCOMBE.

Of course the story published yesterday about Mr. Brice's lequacious agent, who gave away the results of his investigations in Indiana and other States, was promptly denied at Democratic Headquarters. was expected. Mr. Brice has a habit of denying things. He denied a certain interview he had recently with a newspaper man by the name of McBride, notwithstanding the fact that Colonel Brown and General New. who were present, declared that the report was all right, so far as they could remember what was said. Mr. Brice's denial did not cause a bit of surprise at Republican Headquarters, where it is said the story about Brice's spy, Dodge, is perfectly correct and

The Democrats are using the postal service of the United States for the advancement of their party's interests in a shameless way. Congressman C. H. Grosvenor, of Ohio, has forwarded a letter to the National Committee, which he has also filed in the office of the Postmaster-General at Washington. The letter is from Richard Smith, of "The Cincinnati Comnercial Gazette," and states:

We have evidence that our paper is opened at post-offices in Ohio, and Democratic campaign documents slipped into the papers and thus delivered to our subscribers. This is a clear violation of the law in every way. Had we inserted such documents and sent them through the mails, paying postage at pound rates, it would subject us heavy penalty. In all my experience I have never heard such an outrage. Proofs are at hand.

PRESIDENTIAL BUNCOMBE. of sharp political buncombe continues to grow. Secretary Fassett said vesterday:

Colonel Dudley added: "It would have been a more statesmanlike and dignified performance on the President's part had he submitted a new treaty to the Senate after learning the grounds of their objection to the one that was rejected.

Mahlon Chance, one of the secretaries of the Protective Tariff Association, has just returned from a through Indiana, Minnesota, Wisconsin and Michigan. He is enthusiastic over what he saw and predicts that Indiana will give Harrison at least 10,000 majority.

Governor Hill, Secretaries Vilas and Dickinson, Colonel John R. Fellows and a dozen United States Senators and Congressmen have accepted invitations to speak.

TERSE TRUTH TO CATCH THE EYE. The Republican Committee has decided to make the elevated railroad trains a method of disseminating tariff truth. Several hundred placards with pointed remarks and tersely expressed information regarding the merits of protection have been printed and were put up in the cars yesterday. Here are some of the things that appear on the cards:

things that appear on the cards:

Shall American goods or English goods and products stock our market? Shall American or English wages be paid to our workingmen?

A tariff for revenue means free trade. Henry Watterson says that the Democratic party "is a free trade party or it is nothing," and "the Democrat who is not a Free-Trader should go clsewhere." Go elsewhere, young man.

How to acep wages up is the great question with American workmen. Vote them up. Don't vote them down. The Mills bill would reduce wages to the European level. Vote for Harrison.

Southern free-traders, foreign importers and English manufacturers demand free trade in this country. Laborers, skilled mechanics manufacturers, farmers and business men of America oppose them. Harrison—Protection—Prosperity. Cleveland—Free Trade—Distress.

If the Mills bill becomes a law through Democratic ascendency, manufacturers, farmers and laborers will be forced to compete with the pauper product of the world. How do you like the prospect?

Under free trade England is in debt. Under protection the United States has a surplus.

Mills, Carlisle, Bayard, Watterson, Hurd, Lamar and Morrison, the leading free-traders of the Democratic party, are all members of the Cobden Free-Trade Club of England. Are these the men you want to follow? Vote for the United States against the world. Harrison and Morton.

Roger Q. Mills, author of the State Chamber Mills Tartif bill, says he is "in favor of free men, free labor and free trade." If free men want free labor and free trade in this country, and the consequent enormous reduction of wages, let them vote the Democratic ticket.

Under a revenue tartif Canada did not thrive; under protection she is getting rich.
Under protection the wage-earners of the United States have become the owners of more property than all other wage-earners in the world.

Every article purchased abroad throws some American article out of the market.

The average yearly earnings of protected American workingmen (census of 1880) are \$245, or \$1 11 each working day.

A SCHOOL HOUSE CANVASS IN INDIANA NO DEBATE BETWEEN THE CANDIDATES FOR

GOVERNOR-GENERAL HARRISON'S MAIL. Indianapolis, Aug. 25 (Special).-It has been determined that the canvass of Indiana by Republican speakers shall be opened in this city on September 1 ex-Governor Porter. Chairman Huston says that it will be a school house campaign, and from September 1 till the day of election there will be almost daily speaking in every township. There will be no joint debate between the Gubernatorial candidates, Chairman Huston having determined that no oppor-tunity should be allowed Democrats to divert atten-

tion from the main issue, the tariff question. There is no decline in General Harrison's mail since his departure for Middle Bass Island. It was larger yesterday than ordinarily, and it comprised the usual number of presents from admirers who want to do something more than vote for him. Nearly every day he receives something in the shape of wood carving or painting. His mail is largely made up of letters or painting. His mail is largely made up of letters from soldiers, who seem to regard him as a friend who is in close sympathy with them. Many of them complain of the treatment received from Cleveland, and one of the letters from Green Castle, with some bitterness of expression, tells of the President's veto of a special pension bill for a poor widow, whose husband, after long suffering from wounds that made him incapable of doing anything for his family, committed suicide. The bill was vetoed solely because the poor fellow did not die from the direct effects of his wounds.

Philadelphia, Aug. 25 (Special),-Patriotic spirit continues to grow apace, and this week eight additional risbn and Morton banners were raised by as many clubs in different sections of the city. Judge Kelley presided and spoke at two banner-raisings in his district nd made a good impression by his timely tariff truths. The campaign will open in earnest on September 29, when a street parade of all the clubs in in the city will take place. It is estimated that over 60,000 voters will be in line. Meetings will be held in all the large halls in the city, and the demonstration against fre trade will be the most imposing ever seen in the city. This will be followed by Saturday-night parades throughout the campaign. Chairman Cooper will make the campaign a hot one and proposes to poll a great majority in Pennsylvania for Harrison and Morton. The Democrats have selected S. Edwin Megargee as a

ional District.

The Fisheries message has fallen completely flat mong the Irish voters in Pennsylvania. The most ntelligent distrust the earnestness of the President in complete change of his opinions and look upon he message as the work of a clariatan asking for lower which the Executive already possesses.

TRUSTS IN FREE-TRADE ENGLAND. ENGLISH TRADE JOURNALS PROVE THE FORCE OF MR REALNE'S STATEMENT.

Philadelphia, Aug. 25 (Special).—"The Bulletin" of the American Iron and Steel Association, issued to-day, "In one of the campaign speeches of Mr. Blaine

referred to the existence of trusts in England, a freetrade country, to prove that trusts are in no sense a product of our protective tariff policy. We quote from 'The London Iron Trade Circular,' of June 30: The largest amalgamation of business firms which has ever taken place has been accomplished and the propectus of the company will be issued in the course of a lew days. There are eighteen coffin furniture makers in England, Scotland and Ireland, and the whole of these have joined together in one large company with a capital of £400,000, part of which capital will be offered to the public for subscription.' Iron and Steel Trades Journal' for July 14, says: The practice of combination to maintain prices in certain brancles of the English fron trade is extending. in the same district have joined together to prevent free competition. More than twenty firms shared in the effort, and the four or five which declined to combine are aiding the 'ring' by keeping their quotations at the same point as those fixed by the combination. There are other proofs of the existence of trusts in free-trade England, but those given above are fresh and fully sustain Mr. Blaine's statement.

#### SECRETARY WHITNEY'S AMBITION.

RUMOR THAT HE SEEKS TO BE GOVERNOR OF THIS STATE NOT SERIOUSLY CONSIDERED. A rumor that Secretary Whitney, of the Navy Department, is again looking over the ground with a view to capturing the Democratic nomination for Governor of this State, was among those heard about Town yesferday which few sensible politicians con-sidered worthy of serious attention. The antagonism of the Administration to Governor Hill has been open and marked for a long time, but active opposition was supposed to be confined to such friends of the sident as ex-Mayor Grace. This report would have it appear that Mr. Grace and others have simply been put forward to make the fight against Governor Hill, and create a condition of things in which Mr. Whitney hopes to come forward as an apparent com-

Quiet expressions of discontent with the head of Administration have been floating around, credited to Mr. Whitney, which have not been denied by his friends. They are said to have been put out in order to gain friends among the anti-Cleveland Democrats, who have rallied around Mr. Hill's standard, and make it possible for them to give Mr. Whitney support in case he can manipulate a nom-

It is also claimed that Mr. Whitney is tired of life in Washington and wants to get back to this State. In washington and wants to get back to this state. His affiliations are with protective tariff Democrats. He is moreover ambitious, and there have been well-founded reports for some time that he had a longing eye on the White House. This being the case, he sees in the Governorship of the Empire State a glittering prize and a stepping stone to the goal of his ambition. Hill's friends say that Whitney's candidacy gives them no uncasiness.

MINNESOTA WILL SPEAK IN NOVEMBER. HER FARMERS AND LABORERS WIDE-AWAKE FOR PROTECTION AND VICTORY.

R. G. Evans, of Minneapolis, who is the member of the Republican National Committee for Minnesota, spent a day in New-York recently, in consultation with the National Executive Committee about affairs in the Northwest. Mr. Evans is a leading lawyer of his State, and formerly a resident of Indiana, where cerning his State he said, among other things:

Before making up any judgment as to the real situation between the parties in our State, and prompted by the reports assiduously set affort by Democrats that our people were becoming Free-Traders, I spent with various Republicans and thus ascertain by per sonal inquiry just how we stood. The Stale of Minnesota is as solidly Republican to-day as any one could wish, all reports to the contrary notwithstanding. Why, the Democrats have thought they could pull the wool over the eyes of the farmers, who are the most wide-awake Protectionists you ever saw. They know better than the Free-Traders imagine that the 95 per cent of their product consumed in this country is a trade of far more importance to them than the 5 per cent which goes abroad. With closed factories, poverished mechanics and business stagnation they know they would be forced to take a less price for eir wheat, corn, oats, wool and dairy produce. They per not inclined to be deceived by the specious talk of the Free-Traders, and the more the issue is presented to them the stronger is their conviction that their laterest lies with Harrison and Morton."

What majority will you have in Minnesota?" Our usual Presidential majority is in the neighbor hood of 40,000. We shall not allow the standerd to hood of 40,000. We shall not allow the standerd to be lowered. The announcement that Mr. Brice is going to lowa. Minnesota and Wisconsin for the Democratic National Committee, has waked up every Republican in the Northwest. Let him come there, and it will be the best thing for us that could happen. Every Republican will be nerved up to do his duty by this demonstration of the enemy. Even while we regard it as a mere feint to defrict attention from contemplated operations elsewhere, we shall act on the theory that it is a genuine movement, and give the enemy an answer to it in November. We are going to win this fight."

AN ORGAN OF PROTECTION DEMOCRATS. Pittsfield, Mass., Aug. 25 (Special).-W. H. Phillips has started a newspaper in Pittsfield called "The Berkshire Hills." It is the organ of the Protection Democrats. A CONNECTICUT EX-SPEAKER REPENTS. Mr. Durand, ex-Speaker of the Connecticut Legislature, and a long-time Democrat, and who voted for Mr. Cleve-land in 1884, has declared himself for Harrison and Morton and the principles of protection to American industries and producers. Mr. Durand has written a fetter to the Republican town committee of Ansonia, of his secession from the free-trade Democratic party. He is closely identified with the Osborne & Cheesman Co., manufacturers of metal and web goods, and assigns the free-trade tendencies of the Cleveland and Thurman party as his reason for his change

A meeting of the Harrison and Motton Campaign Club of the XXIId Assembly District was held Friday night at the club's headquarters, No. 1,500 Pirst-ave. organization, of which Harmond Miller is president, has nearly 200 members, many of whom were formerly Demo-The club is but four weeks old, yet several large cans of this Assembly District are in the minority, but they are steadily growing stronger. men who voted the Democratic ticket in 1884.

The meeting last night was imperfectly advertised, and the attendance was consequently not large. Considerable interest, however, was manifested, and plain, straightforward talks on the tariff were given to the club by Cap tain W. C. Reddy and Robert Ray Hamilton.

A largely attended meeting of the Irish-American Anti-Free Trade League of the IXth Assembly District was held Friday evening in Greenwich Hall, No. 501 Hulson-John O'Connor presided, rul his son, Patrick O'Connor, took the names of many new members. THE TARIFF POLICIES OF THE TWO GREAT PARTIES COMPARED-AMERICA OR ENG-

Galway, N. Y., Aug. 25 .- C. C. Shayne, of New-York and District-Attorney Hamilton, of Saratoga, delivered speeches on the tariff here to-day. This is Mr. Shayne's nat've place and he spoke to one of the largest gatherings that ever assembled in this town to listen to a political address. The village was fairly overrun with visitors. People came from West Milton, Charlton, West Galway, Barkerville, Foster's Corners, Fishhouse, Northville and other places a dozen miles away. It was estimated that over 3,000 persons were present when the meeting opened Probably half of them were Democrats.

As is generally known Mr. Shayne was himself a life-long Democrat. But when his party declared for free trade he came out boldly for protection. friends and old acquaintances up here heard of it and asked him to come up and give the reason for the change in his political faith. He accepted the invitation. At the depot he was met by the Galway Cornet Band and escorted to hs mother's house the village. The meeting was held in front of Carton Hall, the headquarters of the Republican Club. George H. West, president of the organization, pre-sided. After a few introductory remarks and a brief sketch of the two great parties, Mr. Shayne said in

It is not a name that we should contend for, principle—love of country. America, patriotism and com-mon sense should govern our motives. We must draw the line the coming election—either vote for protection or free trade, and be known in the future as either a friend to America and American homes or a friend to England and English manufacturers. I address you as Americans, for the contest is one between America and Europe.

Mr. Cleveland in his message advocates a reduction of tagiff, which tends toward free trade. Mr. Mills in his tariff bill advocates the same, a needless and wicked assault upon the industries of America. I will not stop to sauit upon the industries of America. I will not stop repeat the trite arguments that sustain this view; I will not tire you with a lengthy repetition of the proofs that labor is better paid in America than any other country in the world, or that our people enjoy infinitely more of the comforts and luxuries of life than any other known, and the lesson they carry is so plain as not to require extended consideration. The question for your consideration is, which party will you support the coming election—the protection party? or the free-trade party? What is free trade? It means that the ports of all countries are open to each other, so that one country can trade with another without expense, duty or tax. Which t means: (1.) That the American workman must compete against the cheap labor of Europe. (2.) Reduction of wages in every branch of trade. (3.) Reduction of the earning power of every dollar of capital now invested in America, either in manufacturing, farming or any other known, and the lesson they carry is so plain as not to re-America, either in manufacturing, farming or any other

Free trade is all very well so far as European countries are concerned, where it costs the same price for labor. For instance, a laboring man in England, Ireland, Germany, Scotland, Spain, Italy or China earns on an average of 40 cents per day, in America the average New if the laborer of this country is willing to work for the same wages as the workmen Europe, then vote for Cleveland and free trade. Every-thing in this world finds its level in time.

WOULD BUY THEIR SHOES IN EUROPE. Suppose a man can make two pairs of shoes a day. It cents to make them in Europe. Take off the Protection tarisf and every manufacturer and merchant in America will have his shoes made on the other side, bring them over here and sell them until our people are too poor to

the condition of the poor people who worked in the paper mills at Factory Village and at Rock City Falls near by before the war. There was no tariff for protection then; there was a slight tariff for revenue, but not enough to afford protection for the poor laborers. I remember when and noticed frequently families consisting of father. mother, sens and daughters working from morning until night, and then with their combined earnings could afford meat only once a week and poor food the balance. Their little homes were poorly furnished, no carpet on the floor, tables without covers, no china; instead, Un plates, lead spoons and pewter mugs were used. On Sunday they did not attend church, for they were too poorly dressed, and all this misery caused under the system which Mr. Cleveland and Mr. Mills are advocating to-day.

After the war, when the tariff was raised so that pap could not be imported from England and Wales any cheaper than it could be manufactured here, the condition of these poor people improved rapidly, and in a few years the children attended school with good shoes and neat and their little homes were tra abodes of misery to those of comf.rt and luxury. And this improvement among the poor people of the whole section continues, and this under the Protective tariff

bring destruction and ruin on our industries! Do you want to see a reign of terror in our country! If you do, then vote for Cleveland and Free Trade.

ALL ALIKE FAVORED BY PROTECTION. All are alike and equally favored by the system which Cleveland, Mills & Co. seek to overthrow. It is a National system, broad and universal in its application. If otherwise, it should be abandoned. It cannot be invoked for one section or one interest to the exclusion of others. It one section or one interest to the variable must be general in its application, within the contemplation of the principle upon which the system is founded. We have been living under it since the war, and it can be said with entire confidence that no country in the world has made such rapid strides, such marvellous progress in art, science and civilization as ours. Tried and tested, it should not be trified with. Do not lot it be trified with,

I beg of you, my old friends and neighbors, don't allow yourselves to be misguided. Listen to reason, to truth, everlasting truth. Study your own interest and your children's interest. As I said in opening, you know me. I was born here; you know my record; you know I do not was born here; you know my recora; you know I do not seek your votes for an efficial preferement. I am not a politician. I have no selfish motives in talking to you as I have to-night. I have no personal preference for Har-rison more than Cleveland. It is not a question of men or individuals, but it is a question of principles, and I desire to see you, my friends, stand by your homes and your

My father, my uncles and cousins were all Democrats, and I was raised among Democrats and always voted the Democratic ticket, and you know that Mr. Cleveland had no stronger supporter in 1884 than myself. But there was no free-trade issue then. Our country and its industries were not in jeopardy. Now that there is danger of England getting a foothold in America I give up all party affiliation for the good of my country. Then, too, we all wanted a change. We have had it, and I think you will agree with me that we have had enough. We will ask Mr. Cleveland to retire on the 4th of next March, and we will attend the inauguration of Benjamin Harrison, the soldier and statesman, the farmer's and laboring man's friend.

Mr. Shayne's closing words were drowned in a tumult of appianse. He was warmly congratulated by
many friends, including some Democrats, who have
come out for protection also.

PITTSBURG FACTORY HANDS WELL PAID. MISLEADING FREE-TRADE STATEMENTS RE-

FUTED BY AN APPEAL TO THE FIGURES. Pittsburg, Aug 25 (Special) .- A telegram from New-York City gives figures to show that protection does not protect. It gives as the average wages in six of leading industries of Allegheny County figures which are a surprise to the workmen themselves. For instance, the average wages of foundrymen are placed at \$8 73 per week; fron workers, \$7 56; leatherworkers, \$8 52, wire workers, \$6 18. A reporter yes-terday visited seveal places, where the wages were taken directly from the pay-rolls. At Callery & Co.'s tannery, leather-workers' wages ranged from \$7.50 to \$18 a week. A member of the firm of Bradley & Co. said it would hardly be fair to make an average on wages of all employed in a foundry. He gave as a reason that about half the employes were apprentices. moniders, he said, made from \$3 to \$4 per day, while common laborers received \$7 50 per week thought the average would be between \$11 and \$12

The Hartman Steel Wire Company gives the following, as taken from its books in the month of June. works employ 350 hands in all departments, of skilled and unskilled labor; the average weekly wages

skilled and unskilled labor; the average weekly wages paid to each man and boy was \$10.10; the lowest amount paid was \$7.50, while the experienced wiedrawers carned from \$20 to \$22 per week; the apprentice boys, who comprise from one-fourth to one-third of the force, get \$5 per week.

The upper and lower Union Mills and the Homestead Mills of Carnegic, Philips & Co., during the month of June employed over 4,500 men. The pay-rolls for the above month amounted to \$234.600.86, or an average to each man and boy of about \$13 per week, which is about \$2 per day.

This includes common laborers, as well as the boys.

HENRY GEORGE TO SPEAK FOR THE DEMOCRATS If the Democratic managers continue to pour forth heir speakers at the present rate they will have almost every able-hodied man in the party on the stump before ber. Maine is fairly overrun with office-holders like District-Attorney Fellows and the other States seem likely to meet with a sindiar fate. Roger Q. Mills is going into West Virginia, New-Jersey and Illinois, Daniel Dougherty, formerly of Philadelphia, has been as-signed to Connecticut. He will make his first speech at Norfolk, August 29. Ex-Governor Abbett, of New-Jer-sey, has decided to come over and help his brethren in this State, along with R. C. Pendleton, jr., of Ohio. Henry George will be heard from on August 27. These are only a small fraction of the army that will take the field. only a small raction and the like of the old war-horses are horrified at the idea of an out-and-out free-trader like George, going on the stump, but he is going on, all the same.

NOTES OF THE CANVASS. The announcement that the Republican Club of East-chester would have a banner-raising and a Harrison and Morton ratification meeting at Mount Vernon on Friday night drew out a crowd that overflowed the Fifth Avenue Hall. There were at large 200 crosses of the Price Avenue Hall. There were at least 600 people in the audience, the largest political meeting ever held in Mount Vernon, and a large number of supposed Democrats were among and a large number of supposed Democrats were among the audience, mostly workingmen, who applauded voelfer-ously the good points made by Congressman Mason, of Chicago, in his argument on "Protection for American industries against Free Trade for foreign monopolists." Judge Isaac N. Mills presided. The banner raised was a handsome one, with vignettes of the candidates that do credit to the paleter. credit to the painter.

LOOKING FOR A QUORUM.

THE HOUSE ANXIOUS ABOUT ABSENTEES. AN ORDER FOR THE ARREST OF DELINQUENT

CONGRESSMEN ISSUED.

Washington, Aug. 25 (Special).—The House was thrown into a state of excitement to-day by a resolution offered by Mr. Payson, of Illinois, to revoke all leaves of absence, except on account of illness, and to break all pairs and prevent the filing of more. The deadlock on the appeal from Dibble's appeal from Springer's decision, ruling out the items on account of the French Spoliation Claims, was still in progress, and the intent of the resolution was to exercise a moral pressure on absentees. The resolution gave rise to a good deal of oratory of the buncombe order. The cars of the absent Courses was a part have bused. The cars of the absent Congressmen must have burned.
Payson told how few times he has been absent, and how few roll-calls he has missed. Blount made the ceiling tremble with his denunciations of Congress men who neglect their duties. Burnes nearly three himself into an apoplexy, and a sympathizer was compelled to bring him a glass of water and fan him. More of the faithful informed the House of their faithfulness, and one and all who spoke said bad words

fulness, and one and all who spoke said bad words about filibustering. Prominent among them were some of the men who were leaders in the famous deadleck to prevent a vote on the Direct Tax bill. Among the absentees were Speaker Carlislo and Chairman Mills, Wilkins, Bland, Chardy, Blanchard, Hatch, Belmont, Townshend, Herbert, Peel, Springer, O'Ferrall, Outhwaite, J. J. O'Neill, McAdoo and a large number of other prominent Democrats.

If the Speaker and all his Democratic chairmen had been present, the House would not have been without a quorum. Mills is in Chicago to make a pointical speech. The resolution, so far as it relates to leaves of absence, was adopted. Mr. Cannon, of Illinois, took occasion to rebuike the majority for its incapacity, in a short, vigorous speech, which after all seemed to be love's labor lost. The usual order was issued for the arrest of absentees.

DON M. DICKINSON'S DETECTIVES. GOVERNMENT OFFICERS SHADOWING THE TRIB-UNE RUREAU IN WASHINGTON.

Washington, Aug. 25 (Special).-The Postmaster-General is amusing himself by putting detectives upon the track of everybody that is seen either to enter or leave the Washington bureau of The Tribune. He has been "in a state of mind" ever since The Tribune published his brother's letter, which clearly showed "Dear Don's" fine Italian hand in New-York politics. It was the first authentic confirmation of what had been suspected, that the Administration was "working" the Aqueduct appointments for all they were worth. How that letter found its way into the hands of The Trib-une's correspondent is neither here nor there. The Postmaster-General, for one, will probably never find out. He has a theory of his own, however, and has communicated to the detectives his suspicion that it

was stolen from the desk in his office-right from under his nose, as it were. Of course this is only a "theory which he is confronting," not a fact. It may be pertinent, however, to inquire how it is that the be pertinent, however, to inquire how it is that the Postmaster-General of a Reform Administration can employ detectives paid by the Government to do work for the Government, in a matter which is a purely personal one and concerns himself alone? Mr. Dickinson can answer that question, perhaps.

While on this subject, it may be well to note that "Physical Wreck" Black amused himself in the same manner in which "Boss" Dickinson is amusing himself now, some time ago. The pleasure of the thing must have been, to him, immense. He kept it up for six weeks. Of course, he never found out how The Tribune got its information of the doings in the Pension Office. But, then, he had lots of fun—and the Government paid for it all, too.

SENATOR ALLISON DOES NOT WANT A RECESS. Washington, Aug. 25 (Special).—On the authority of a Democratic Senator from the South, dispatches were sent from Washington last night to the effect that Senator Allison went to Senator Beck and asked him if the Democratic Senators would consent to a recess for three weeks, and that the Kentucky Senator asked: "Do you come as the representative of the

No, but I am tired and need rest, and bes want to get through with the preparation of the Tariff

"Well, replied Beck, "I would be personally willing, but the minority is determined to hold the Republicans here until they do something."
When this was made known to Senator Allison today, he said: "There is not one word of truth in that story, and I am anxious that if should be contradicted in the most positive and emphatic terms."
